

Start Taking The PiSS

I've lived a life that's full, I think that's fair to say,
But it's hard to know what goes on below, and so I'm in this place,
I've got tubes running out of me, I feel like a bowl of spaghetti,
If I could turn back time, I think I'd simply, investigate these bloody kidneys,
If only I'd known what's up and asked, my doctor for that cup so I could piss in it
So I could piss it in

PRE-CHORUS

But it can be tough to pee in a cup
And it can be tricky when pee is trickling
Down the sides and on the floor
And God forbid in the shoes you wore
But don't be deterred, surely you'd prefer
Knowing what's to do, with Kidney One and Two
So next time you see your GP, Ask them for that cup to wee in and...

CHORUS

Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss my friend and give a
cheers to your GPs
Thank you for the love you're giving

Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss
Start taking the piss my friend, you'll get
a thanks from your kidneys
Thank you for the love you're giving
